- Link the check number to the correct bank account\*
- Positive Pay\*\* available

### FEATURES:

-

**EASY** - MultiCHAX® prints MICR encoded checks on blank forms in a single step. and integrates with virtually all accounting programs such as QuickBooks, Quicken, Great Plains, Solomon, Peachtree.

-

**FAILSAFE OPERATION** - Our patented feature links the check number automatically to the right bank account\*. Never again inadvertently print a check on a form for the wrong bank account.

-

**UNLIMITED ACCOUNTS** - Use any number of companies or bank accounts with MultiCHAX®.

-

**SEAMLESS INTEGRATION** - You merely have to choose to print to the MultiCHAX® Virtual printer when printing checks within your accounting software. Once your software begins to print, MultiCHAX® automatically determines which bank account you are using and prints the full check image including the MICR characters.

-

**PRINT LOGOS AND SIGNATURES** - Logos, signatures and form overlays can be inserted onto the check face using scanned jpeg, gif, or bmp format files. These may be stored on USB storage for extra security. No special printing hardware is required.

-

**CUSTOMIZE CHECK CONFIGURATIONS** - The MultiCHAX® system enables you to choose any of four different formats to print your check, including 3 checks to a page, bottom check, middle check, or top check configurations.

-

**SAVES MONEY** - You no longer have to worry about stocking different forms for different bank accounts or different purposes. With MultiCHAX you can print blank checks and wallet size checks for manual check writing. Also, you can create deposit tickets for any of your accounts. Eliminate the risk of obsolete check forms, by stocking only blank check forms.

-

**SAFE AND SECURE** - The system is networkable and the encrypted databases used internally by MultiCHAX® are designed for multi-user access. As checks are written a data base is updated adding an entry for each check printed by MultiCHAX®. This file is encrypted and password protected. The MultiCHAX® user &ldquo;administrator&rdquo; may change this password so that the file is in fact a secure audit trail of checks produced by the system.

-

**CHECKS & MORE** - Print blank checks and deposit slips, too.

-

**CHECK FILE LOG CREATED** - MultiCHAX® can support the use of the additional fraud prevention of &ldquo;Positive Pay&rdquo;,\*\* systems offered by many banks.

\* Enterprise Edition Only.

\*\* Additional module required for "Positive Pay" Setup. Please contact customer service for more information.
